# DEPARTMENT OF ENERGY, LABOR, AND ECONOMIC GROWTH

	Program	Year-To-Date Gross Appropriation	Year-To-Date GF/GP Appropriation	FY 2008-09 Reduction Amount
1.	No Worker Left Behind. This program provides dislocated workers up to two years of education or training in high demand occupations. This is the second year that GF/GP has been made available for this program. These funds were allocated in boilerplate for adult basic education, community college capacity building, and additional funding to the local Michigan Works! Agencies that award these funds to the education and training providers on behalf of the individual. Of this reduction, \$2.5 million is from the elimination of funding for the community college capacity building program. Overall this is a 52.0% reduction in these funds bringing the total appropriation to \$7,163,400 GF/GP.	130,647,400	15,000,000	(7,836,600)
2.	Housing and Community Development Fund. This reduction would eliminate GF/GP funding for this program. The Fund is included in the Michigan Housing Development Authority Act, MCL 125.1458c and 125.1458d, and is administered by MSHDA to provide funding to local units of government to increase affordable housing to extremely low income individuals around the State.	2,163,400	2,163,400	(2,163,400)
3.	Fire Fighters Training Council. This reduction will be achieved through unfilled vacancies during the balance of the fiscal year. There are 8.0 FTEs appropriated in this line. This line was reduced by \$30,000 in E.O. 2008-21 and the Governor and Senate are recommending an additional \$10,000 reduction in FY 2009-10.	1,716,400	1,321,400	(495,000)
4.	Fire Marshall Program. This reduction will be achieved through unfilled vacancies during the balance of the fiscal year. There are 5.0 FTEs appropriated in this line. This line was reduced by \$15,000 in E.O. 2008-21 and the Governor and the Senate are recommending an additional \$5,000 reduction in FY 2009-10.	438,100	438,100	(50,000)
5.	Bureau of Workers' Compensation – Administration. This reduction will be achieved by maintaining unfilled vacancies through the balance of the fiscal year. There are 96.6 FTEs appropriated in this line. This line was reduced by \$600,000 in E.O. 2008-21 and both the Governor and the Senate are recommending an additional \$200,000 reduction in FY 2009-10.	9,312,500	6,971,500	(768,000)

6.	Bureau of Workers' Compensation – Board of Magistrates and Appellate Commission. This reduction will be achieved by maintaining unfilled vacancies through the balance of the fiscal year. There are 19.4 FTEs appropriated in this line. This line was reduced by \$31,500 in E.O. 2008-21 and both the Governor and the Senate are recommending an additional \$10,500 reduction in FY 2009-10.	3,449,100	1,426,800	(304,100)
7.	Wage and Hour Division. This reduction will be achieved by maintaining unfilled vacancies through the balance of the fiscal year. There are 35.0 FTEs appropriated in this line.	3,090,800	327,900	(12,000)
8.	Michigan Rehabilitation Services. This reduction will be achieved by maintaining unfilled vacancies through the balance of the fiscal year. There are 513.5 FTEs appropriated in this line. This reduction could result in a loss of up to \$370,000 in federal funds by reducing our match amount. The amount of the lost match will depend on any additional local or private funds that can be raised to offset this reduction.	70,535,300	7,479,700	(100,000)
9.	Workforce Programs Administration. This reduction will be achieved by maintaining unfilled vacancies through the balance of the fiscal year. There are 61.0 FTEs appropriated in this line. This line was reduced by \$150,000 in E. O. 2008-21 and both the Governor and the Senate are recommending an additional \$50,000 reduction in FY 2009-10.	12,717,500	563,900	(100,000)
10.	<b>Focus: HOPE.</b> This reduction would eliminate the fourth quarter allotment from the GF/GP portion of this grant. This 10.0% reduction brings the GF/GP appropriation to \$774,200.	5,860,200	860,200	(86,000)
11.	Vocational Rehabilitation Services/Centers for Independent Living. This reduction would bring the GF/GP appropriation back to the level of FY 2007-08. The enacted bill increased this line by \$500,000 for FY 2008-09 by appropriating Corporation Fees. These fees, if not expended, lapse to the General Fund at the close of the fiscal year.	3,579,700	2,109,500	(500,000)

12.	Michigan Nursing Corps. This program was created in FY 2007-08 to respond to the nursing shortage. The program is designed to address the need for nursing instructors and faculty required to increase the capacity for nursing students. This reduction would lapse the remaining uncommitted balance in this line. This reduction will eliminate the funds allocated to develop the clinical faculty curriculum and the 2 <sup>nd</sup> degree accelerated nursing program for dislocated workers who already possess a bachelor's degree. Funds already awarded to the Detroit Medical Center, Northern Michigan University, Saginaw Valley University, Wayne State University, Eastern Michigan University, and Michigan State University will not be affected.	5,000,000	5,000,000	(454,400)
13.	Commission on Spanish Speaking Affairs. This reduction will be achieved by accelerating the lapse amount expected at the close of FY 2008-09.	252,700	252,700	(15,000)
14.	Commission for the Blind. This reduction will be achieved through administrative efficiencies and reduced expenditures for CSS&M. The reduction may result in the loss of up to \$87,500 in Federal funding due to the match requirement. There is the possibility that additional local or private funds could be used to restore these funds and alleviate any reduction in Federal funds, should they become available.	19,684,900	4,262,300	(23,700)
15.	JET Plus. This reduction to a boilerplate appropriation allows Federal Temporary Assistance for Needy Families (TANF) funding to be used to offset a GF/GP reduction in the Department of Human Services (DHS). See item #2 in DHS.	21,000,000	0	(14,000,000)

Program	Year-To-Date Gross Appropriation	Year-To-Date GF/GP Appropriation	FY 2008-09 Reduction Amount
1. Michigan Promise Grants. Public Act 479 of 2006 created the Michigan Promise Grant Program to provide merit-based grants of up to \$4,000 to students who score well on the high school Merit Exam and/or who complete two years of postsecondary education with at least a 2.5 grade point average. The FY 2008-09 appropriation pays for the \$1,000 biennial grants (\$1,000 per year for the first two years of study) for students from the high school graduating classes of 2007 and 2008 who are enrolled in college and who scored well on the Merit Exam in high school.	\$80,500,000	\$0	(\$5,000,000)
Promise Grants are funded from the Michigan Merit Award Trust Fund. There were approximately 40,000 certified qualifiers in the class of 2007 and only 35,288 in the class of 2008 which will likely result in lower-than-projected FY 2008-09 spending for Promise Grants. The State Budget Office is projecting an FY 2008-09 year-end balance of approximately \$11.0 million.			
The proposed \$5.0 million reduction in Merit Award Trust Fund revenue for Promise Grants would allow a fund shift to the Department of Community Health (DCH). State GF/GP in DCH would be replaced with Trust Fund revenue to achieve a GF/GP savings of \$5.0 million.

The goal of the program is to provide competitive grants up to \$3.0 million for districts with less than a 70.0% graduation rate, using the dollars to redesign high schools with a focus on reducing dropout rates. While the program is funded with School Aid Fund (SAF) revenue, the Executive Order proposes to reduce the General Fund allocation to the School Aid budget by the recommended \$7.0 million reduction, thereby effectively shifting the SAF program reduction to produce General Fund savings. # **DEPARTMENT OF TREASURY - REVENUE SHARING**

	Program	Year-To-Date Gross Appropriation	Year-To-Date GF/GP Appropriation	FY 2008-09 Reduction Amount
1.	Reduce statutory revenue sharing payments. Under current law, each city, village, and township (CVT) will receive the same total of combined constitutional and statutory payments as received during FY 2007-08. CVTs that received a statutory payment in FY 2006-07 also will receive a payment equal to 2.0% of their FY 2006-07 statutory payment. The reduction eliminates the "2.0% payments" and each CVT will receive the same statutory payment (as opposed to the combined statutory and constitutional payment) in FY 2008-09 as they received in FY 2007-08. The total actual reduction as described would equal \$41,447,400.	\$1,050,963,85 0	\$0	(\$41,400,000)
2.	Units Controlled by an Emergency Financial Manager. Since Executive Order 2002-22 reduced statutory payments to local units in FY 2002-03, and CVTs under the control of an emergency financial manager have been held harmless for the reduction in that Executive Order (but not other reductions in revenue sharing). Currently, only the City of Highland Park remains affected by the provision. The reduction would lower the payment by 50.0%.	212,000	212,000	(106,000)

2. FY 2009 21 <sup>st</sup> Century Jobs Fund. This reduction would bring the appropriation for this program to \$52,950,000. Detail on which program within the Fund that will be reduced will be determined by the Board and may require additional statutory language to the MSF Act.	62,000,000	0	(9,050,000)
3. 21 <sup>st</sup> Century Jobs Trust Fund Transfers to the General Fund	·		
a. Work Project Account - Appropriation Year 2006 - Department of Treasury - Agriculture Development Fund. These funds were allocated in FY 2005-06 as part of the original \$400.0 million bond proposal. Funding was provided for loans under the Julian-Stille Value-added Act, P.A. 322 of 2000. The funding was to support a loan program for specialty crops. No loans have been made from this fund. (\$5,000,000)			
b. Work Project Account - Appropriation Year 2006 - MSF 21 <sup>st</sup> Century Jobs Trust Fund - Forest Finance Authority. This authority received an initial appropriation of \$26.0 million which was reduced to \$6.0 million through an earlier budget reduction. This reduction would exhaust the balance in the work project account. The funds were allocated to projects that preserve or create jobs or develop forests or forest industries. (\$4,950,000)			
c. FY 2008-09 VETO - MSF 21 <sup>st</sup> Century Jobs Trust Fund. These funds have not been appropriated as a result of an FY 2008-09 line item veto. The appropriation bill included a \$3.0 million set aside for Lakeshore Advantage, an economic development agency in Holland, Michigan that was facilitating the transfer of a former Pfizer facility into a biomass research laboratory that would be owned and operated by Michigan State University. This action would force the lapse of those funds to the General Fund. Additional statutory changes would be necessary to facilitate the transfer of these funds. (\$3,000,000)
